

Convenient, effective solutions for workers on the go

Outdoor workers are exposed to a multitude of environmental hazards. The sun's harmful UV rays are known to be a primary cause of skin cancer. Cold, dry winter air can cause painful chapping and chafing. Contact with poison ivy, oak and sumac leads to painful, itchy rashes that can reduce productivity and increase lost time. In addition, infectious diseases such as common colds and flu cost tens of millions of dollars in lost time each year. Safeguard your workers against outdoor hazards, with economical solutions that help keep employees healthy, productive and on the job.

Outdoor worksites pose greater risks to skin health. Protect your employees against many common skin health hazards with effective, easy-to-carry, easy-to-use solutions from STOKO®.

BLOCK THE HARMFUL EFFECTS OF THE SUN

The American Academy of Dermatology recommends using sunscreen that blocks both UVA and UVB rays, rated with a Sun Protection Factor (SPF) of at least 15, year-round. STOKO® UV blocking solutions are the perfect answer to healthy skin.

- Tailored to the needs of outdoor workers
- SPF30 sunscreen provides longer-lasting protection
- Lineman's Glove Tested and Approved (Type 1 Class 2 ANSI/ASTM D120)
- Highly resistant to sweat and water (tested per FDA requirements after 80 minutes of water activity)
- Cedar Fragrance Discourages Insects

Available sunblock formulas include:

- Easy-to-apply towelettes
- Lotion in small, easy to carry non-breakable plastic bottles

PROTECT AGAINST THE EFFECTS OF COLD, DRY AIR

Harsh winter air depletes the skin's natural defenses, leading to painful chapping, chafing, dryness and even frostbite. With STOKO® skin rejuvenators and cold weather protection your employees' skin can stay strong, healthy and pain-free.

- Protection for hands, face, arms and any other exposed areas
- Helps keep skin healthy and resilient
- Small, easy-to-carry tubes allow application anywhere
- May be used before, during and after exposure
- Absorbs swiftly – leaves no unpleasant residue

Available formulas include:

- Concentrated, silicone-free conditioning cream to replace lost moisture and oils
- Advanced hydrating moisturizer with creatine to boost skin's natural restorative abilities
- Special protection for exposure to extremely low temperatures and harsh conditions; will not freeze, adds essential lipids back to skin
- Lineman's glove tested and approved

PROTECT AGAINST POISONOUS PLANTS

Poison ivy, oak and sumac all contain urushiol oil, a potent allergen that can cause severe skin irritation in 70 percent of the U.S. population. STOKO® provides proven solutions that protect your workers throughout the day, and also minimize allergic reaction.

- FDA approved
- Active ingredient bentoquatam is the only product proven to prevent poison ivy, poison oak and sumac rash
- Small, easy to carry, non-breakable flip-top plastic bottles perfect for on-the-job use

KEEP WORKING HANDS CLEAN AND GERM-FREE

Common cold and flu germs thrive on hands and surfaces. Plus, dirt and grime can hide minor cuts and abrasions that can harbor germs and bacteria and lead to more serious lost-time injuries. STOKO® protects your employees with compact hand hygiene solutions perfect for the remote jobsite and used without water.

- Portable wipes provide excellent performance on skin, tools and surfaces
- Waterless cleaner has non-greasy feel and is gentle on skin

SANITIZERS

Instant hand sanitizers are the perfect solution for the remote jobsite where soap and water are not available.

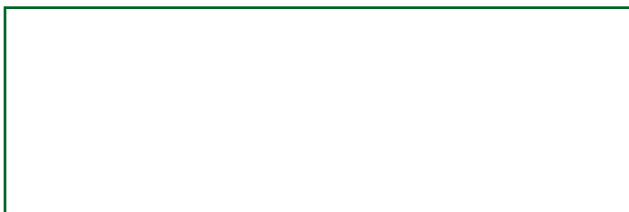

- Eliminate germs anywhere with STOKO's complete selection of sanitizers
- Kill 99.9% of the most common illness-causing germs in as little as 15 seconds
- No water required
- Available in foam, spray, gel and sanitizing wipes
